*You've had a Lakewood guitar for a long time and now you cannot find it within our guitar range? Maybe you are luckier here. . . This is a list of older guitar models that have been taken out of the series program. Most of them are still available via our customshop.*

*The M-1 CP was part of the basic series from 1999 until 2005. The installed pickup systems are B-Band A-3 and on later models A-5. The standard necks are 46mm wide, on earlier models 44mm. Some models also had rosewood fingerboards and bridges instead of the ebony ones.*
